Microsoft Certified Enterprise (MCITP) Online Program
Tuition - $3,000: 18 weeks

Overview
The enterprise administrator is responsible for the overall IT environment and architecture. The enterprise administrator translates business goals into technology decisions and designs mid-range to long-term strategies. Enterprise administrators also make key decisions and recommendations about the following:

- Network infrastructure
- Directory services, identity management, and authentication
- Security policies
- Business continuity (disaster recovery, personnel, equipment, and data)
- Design of IT administrative structure (delegation models)
- Best practices, standards, and service level agreements (SLAs)
