Cisco Certified Network Professional (CCNP)

Tuition: $3,000.00 – (12) Weeks

Program Overview: SkillSoft and Cisco Systems have developed a comprehensive e-Learning offering focused on Cisco’s industry-leading products and its comprehensive routing and switching, and network design certifications. As an authorized provider of Cisco Career Certification training, SkillSoft is directly aligned with Cisco product development.

The CCNP credential denotes a high level understanding of networking. CCNP certified professionals can install, configure, and troubleshoot local and wide area networks for enterprise organizations with networks from 100 to more than 500 nodes.

Target Audience: This program is for those aiming to become network engineers with responsibility for medium to large scale networks, or anyone working toward the Cisco Certified Network Professional qualification.

Prerequisites: A valid CCNA credential is required.
